

The international forum where the high-performance computing and high-speed networking communities meet

Hot Interconnects 2012 continues its tradition to offer world-class tutorials held by internationally renowned experts in the area of high-performance interconnection networks.

CALL FOR TUTORIALS

Scope: Attendees will come from mixed backgrounds and interests in interconnection networks. Tutorials are intended to cover all areas of interest for Hot Interconnects as listed on the Call for Papers. However, we encourage tutorials of broad applicability rather than those focusing solely on research in a limited domain or by a particular group.

Equipment: Hot Interconnects will solely provide internet access and rooms with standard presentation equipment. Hands-on tutorials must be prepared to rely on laptops brought by the participants.

Review Process: Tutorial submissions will be reviewed by the Hot Interconnects 2012 tutorials committee. The committee will consider, among other aspects, appropriateness and utility for Hot Interconnects tutorial audience, timeliness and general interest, clarity, completeness, cohesiveness of the proposal and presentation history and teaching/speaking experience of the presenters.

Publication: All materials must be submitted to the tutorials chair by August 10 and will be released to the attendees. Submitters must explicitly agree to release the materials for this purpose.

How to submit: Tutorials may be proposed for either full-day (six hours) or half-day (three hours) duration. Full-day proposals may include up to four presenters, half-day proposals may include one or two presenters. Half-day tutorials on new and emerging technologies are encouraged. Tutorial proposals must be submitted electronically via the web site

<http://www.easychair.org/conferences/?conf=hoti2012tut>

Some of your information must be in both the web form and in the file upload. Although not required, you are strongly urged to submit samples of your visual aids. You may upload these in PDF format separately or as an addendum to your detailed proposal, or you may supply a URL at which the samples may be found.

The uploaded file should contain the following sections, each beginning on a separate page:

1. A 200-word (maximum) abstract
2. A description of the tutorial content (maximum two pages) containing
 - a. Goals of the tutorials (takeaways for the audience)
 - b. Why is it relevant for HOTI'12 attendees?
 - c. Targeted audience
 - d. Audience prerequisites
 - e. Content level (split into: beginner, intermediate, advanced)
 - f. Summary of general content
 - g. All previous presentations of this tutorial and how it differs from them
3. Detailed outline of the tutorial (1 page)
4. Resume of Curriculum Vitae for each presenter (4 presenters maximum, 1 page maximum each)
5. A statement agreeing to release the notes to HOTI'12 tutorial attendees
